# Organic Coffee

## San Dimas Blend

### Behind the Blend

Created by Heather Perry, two time United States Barista Champion, **O-Life San Dimas Blend** is a great combination of both full and rich bodied drip coffee and as a sweet espresso. This blend is a combination of 3 unique beans from **Central America, South America and Indonesia**, that creates an exclusive flavor from all over the world.

All of our beans are **harvested with care**, with some beans originated from Cafe Femenino Farms, an industry that unites female coffee producers and a supplier to companies around the globe. The women farmers participate in all farm activities. They prepare the terrain, nurseries, and the compost. They fertilize the soil and prepare bio fertilizers, as well as harvesting, de-pulping, fermenting, and drying of the coffee. **The beans come together to create the ultimate organic experience, with sweet flavors of caramel and brown sugar, nut flavors that add a richness and depth, and deep cocoa and earth notes that wrap it all together.**

#### COMPARISON CHART

	O-Life San Dimas Blend	Other Leading Coffee Industry
Taste	Rich and Bold	Acidic and Bland
After Taste	Refreshing and Exhilarating	Over-natural and Weak
Aroma	Fresh and Savory	Pungent and Perfumed

Available exclusively to our O-Life members at its finest.
